our General Equality Duties**

**Progress Report April 2023**

This report will outline the progress made by the Force and OPCC over the last year against our Strategic Equality Objectives for 2020-2024.

Following consultation and engagement with members of our public, and our staff and officers, the following objectives were agreed as the priorities for 2020-2024.

1. To increase the diversity of our workforces so that we are truly representative of our communities.
2. To ensure that once in employment, our diverse workforce is being treated fairly and equitably.
3. To improve our understanding of our diverse communities in order to ensure that our services are fit for purpose, and that all of our communities have a voice in policing.
4. To ensure that we are effectively identifying and reacting to issues relating to community cohesion with a view to reducing the number of hate related crimes and incidents being committed within our Force area.

A full explanation of how we identified these equality objectives, together with the actions we plan to undertake can be found in our Strategic Equality Plan 2020-2024.

The objectives will drive progress against our general compliance with the Equality Act 2010, ensuring that we are providing a fair and equal service to our communities, as well as helping us become employers of choice for our collective workforces.

This progress report will include information on the various work streams which we have in being over the last year in order to develop against our objectives.

website, once approved, so that it will hopefully encourage future potential candidates.

**Welsh Language Courses** - With the current pandemic, it has meant that our Welsh Language courses have come to a halt. Therefore, we have had to think of other ways to ensure that we are still providing opportunities for staff and officers to learn the language - as a result online courses have been advertised via the force's intranet, this will ensure that learning opportunities are still provided. We have also relaunched our mentoring scheme, this scheme not only ensures that fluent Welsh speakers are able to help those learning the language but it also provides an opportunity for those who are working from home alone to continue that communication with colleagues within the force.

**Peoples Board** - HR provide an update at each of the Peoples Board meetings, whereby they provide

				<p>data of recent intakes specifically focusing on the protected characteristic.</p> <p><b>NPCC Equality, Diversity and Inclusion Strategy</b> - The NPCC launched its Equality, Diversity and Inclusion Strategy in 2018. As a result of the strategy, AFI's have been disseminated to various groups within the force and they are governed by the Embracing Diversity Group.</p> <p>We have been successfully selected to form part of a Peer Review held by the College of Policing on our ED&amp;I work. The peer review focuses on different aspects but one of which is how we attract, recruit, retain and progress our staff.</p> <p><b>Public Sector Equality Duty (PSED)</b></p> <p>The force's current PSED information can be found on the Force's external website. This information is published annually and it is vital in ensuring that we are aware of our organisational makeup.</p>

				<p>Communication has been made recently encouraging our workforce to declare their personal diversity information. At present the OPCC publish the diversity figures of staff on its website. For the year, 2021.22 the Compliance and Performance Manager will be liaising with Force's Equality and Diversity Manager to identify any possibilities for additional reporting on this data.</p> <p>The OPCC Chief of Staff reviewed intakes of staff in the last year, and are content that there are no disparity of representation within the recruitment process.</p>

As a result of the workshops we as a force were given recommendations by Chwarae Teg in order to decrease any such activity. A National Strategy has been created, however, having discussed at the Embracing Diversity Group a decision has been made to create our own DPP internal working group to discuss further action required, a brief action plan has also been created and progress has been made in achieving those actions and areas for improvement.</p> <p><b>Trans Policy</b> - A new Trans Policy has been created, this not only includes a specific transitioning within the workplace policy but it</p>	<p>and staff and ensuring support is provided.</p> <p>We have 7 pairs on the initial pilot scheme, varying from IAG members, Police Sergeants, members of staff to the Chief Officer team.</p> <p>We have recently contacted the members on the current pilot scheme inviting them to share feedback with us regarding the process so far. Our intention is to collate this information and action any amendments to the process, based on their feedback.</p> <p>We then plan on sharing the Scheme Force wide, hopefully utilising Film Friday to highlight it. We will also create an intranet page on DPPi2 which will include:</p> <ul style="list-style-type: none"> <li>- Information regarding the Scheme;</li> <li>- Guidance for the mentor and mentee</li> <li>- A video by current members on the scheme, explaining what it entails and the benefits of it;</li> </ul>	<p>scheme is to ensure that Senior Leaders are made aware of any issues on the ground from officers and staff and ensuring support is provided. **Youth Engagement**

During the last year, the OPCC has worked with its Youth Forum to develop a short video with young people in Dyfed-Powys sharing their experiences of Police contact, both positive and negative. A media company was commissioned by the OPCC to work with the Youth Forum to create the video.

The work was completed in July 2021, whereby the Youth Forum members held a meeting with DPP staff from Learning and Development to hand the resource over. The video now sits as a learning resource within Police training with L&D. The work of the Youth Forum on this resource has been acknowledged as an example of good practice by the Children's Commissioner, and Welsh Government.

The OPCC worked closely with DPP on its Children's Right Charter, that has been developed in

partnership with Hywel Dda Health Board, and Mid and West Fire Service. The Charter was launched in September 2021.

**Victim Engagement Forum**

A Victim Database sits alongside the Victim Engagement Forum. Each individual on our Database (currently 90) has been affected by crime and/or anti-social behaviour, and all have agreed to join the Forum in order to be informed of engagement opportunities linked to victim services, aimed at improving victim services.

When the Victim Engagement Forum was established, we took the decision not to collect demographic data for the Forum members, and this stance has not changed to date. When new members join, we only record their contact details. This is to enable us to empower them to have their say on victim services. They decide, based on the information we provide, whether they have feedback they wish to share and whether they

				<p>wish to get involved in that specific engagement opportunity.</p> <p>Under data protection legislation, we will not hold data that we do not need. We do not need to know victims' protected characteristics to inform them of our engagement opportunities.</p> <p>We do not undertake targeted engagement. If a specific piece of engagement requires analysis based on protected characteristics, this will be identified prior to contacting those on our Database, and a question can be added linked to protected characteristics, as will then have a reason for collating that specific information.</p> <p>During the last year, the OPCC has worked with members of the Victim Engagement Forum to develop a short video with victims and survivors, portraying their experiences of police contact. The video looks at both the positive and negative, and how that contact affected their confidence in, and interaction with, the police.</p>	
--	--	--	--	---	--

The interviews were conducted both in Welsh and English; the language in which the victim / survivor was most comfortable in using. A fully bilingual video has been shared with the Learning and Development Department and will be utilised as a resource within their training package.

**Police and Crime Plan**

One of the key responsibilities of the Police and Crime Commissioner is to issue a police and crime plan as soon as practicable after taking office and within the financial year of being elected. The new Police and Crime Plan was published in December 2021 following the PCC's Election in May 2021. In forming the plan, consultation sessions were held with residents of the Dyfed-Powys area to understand their views which ensures the plan is shaped by the public and local stakeholders.

As part of the consultation process, the OPCC held several focus groups with

				<p>diverse groups within our communities, to ensure that the opinions of our diverse communities were taken into consideration in forming the plan. These included ethnic minority groups, religious groups, LGBT+ groups and other groups that are considered to be harder to reach within our communities.</p> <p><b>Feelings of safety across the Dyfed-Powys area</b></p> <p>With Violence Against Women and Girls (VAWG) at the forefront of national discussions and media coverage during the year, it was important that the PCC considered and assessed the local situation. We wanted to ask the question, <i>do women and girls feel disproportionately unsafe across the Force area?</i> In December 2021, the PCC launched a public consultation to assess general feelings of safety within the four counties of Carmarthenshire, Ceredigion, Pembrokeshire and Powys. The information gleaned through this consultation will allow us to identify any cause for concern locally in</p>	
--	--	--	--	---	--

					<p>terms of feelings of safety, specifically within our female population.</p> <p>The consultation will allow the identification of specific locations where residents feel unsafe, as well as how feelings of safety may be improved.</p> <p>In order to inform residents of the PCC's consultation, and to reach as many as possible, we promoted and circulated the survey through a variety of methods: For example, through press releases, general social media posts, targeted social media posts for the younger population, via partners, and importantly, across the network developed through the above-mentioned Police and Crime Plan consultation.</p>
