

SUMMARY DECISION SHEET

Purpose: Commissioner Decision – Ref. DLI 131

Timing: Pressing

Title: Extension of Goleudy contract

Category of Decision / Business Area Impact: Commissioning

Executive Summary:

In April 2017, the Police and Crime Commissioner brought the victim referral service in house, awarding a contract to Dyfed Powys Police for provision of the service (decision log DLI013). This contract ran for a 3 year initial period, with 2 options to extend for a further 12 months each. This service has since been enhanced with the additional provision of services for the support, referral and reduction of antisocial behaviour.

The PCC is recommended to call upon the first extension period for the victim referral service, bringing the end date in line with the associated contract for antisocial behaviour support. This includes the additional provision of services to victims of medium risk domestic abuse, as recorded in decision log DLI085 and accompanied by provision of an additional funding. This will allow for the service to victims to be safeguarded into the new PCC term commencing in May 2020, at which point a review may be undertaken to provide the PCC with a number of options for the preferred model for continuation of these services. PCCs have a statutory duty to act as the voice of victims and are provided with MOJ funding to ensure the provision of services to support victims to cope and recover from the crimes they have experienced.

The terms and conditions applicable during the period of extension will be the same as those which presently prevail for the current Contract. However, there are a number of existing concerns which the Commissioner will expect to see resolved as a condition of the extension. This includes the provision of a robust performance management framework to provide evidence of the quantity and quality of service delivery, along with a resolution to the current challenge of gaining and recording appropriate consent to allow Goleudy, along with those commissioned services to which Goleudy may refer in order to address the needs of each victim, to make timely and appropriate contact with victims.
