SUMMARY DECISION SHEET

Purpose: Commissioner Decision – Ref. 442

Timing: Singular

Title: DPP2547 Fuming Cabinet

Category of Decision / Business Area Impact: Finance

Executive Summary:

The Fingerprint Development Unit (FDU) holds UKAS accreditation for the fingerprint enhancement process of superglue fuming. This process relies on the use of fuming cabinets to effectively develop fingerprints on crime scene exhibits. The large cabinet now needs to be upgraded to ensure that the FDU can continue to provide the current service.

In order to maintain accreditation for any process it is important that when equipment is replaced/upgraded that it follows the same working method as what has already been validated and accredited.
