The ten actions taken at the meeting of 7th May were discussed. The PCC confirmed just two remain 'in progress'; both relate to the planning of engagement activity. All other actions were marked as 'complete' and featured on the agenda for this meeting.

3. Working Group update on tasks from previous meeting

At the May meeting, Select Committee members raised several queries and requested additional information to guide them in their decision-making. Following the meeting, Committee members were provided with a document relaying the relevant information and clarification as requested.

In addition to this, Census data conveying the population of 18–25-year-olds across the DPP area, as well as a breakdown of criminal offences committed by 18–25-year-olds, was shared with Members.

They were also provided with a document setting out crime and anti-social behaviour (ASB) intervention, prevention, and engagement best practice in areas across the UK, identified by the Working Group. Members commended the work being undertaken and reiterated the importance of identifying local best practice.

The PCC led a discussion on data: Reoffending data in terms of its availability and how such data could evidence the success of crime and ASB intervention, prevention, and engagement services; and the proportion of crimes committed by 18–25-year-olds.

Action 11: Working Group to glean a wider understanding of reoffending data captured by service providers.

Action 12: Working Group to further consider the proportion of each crime type committed by 18–25-year-olds, and the location of the crimes.

Action 13: Working Group to discuss with Dyfed-Powys Police, the development of a Problem Profile for crimes committed by 18–25-year-olds.
